## SELFISH CLUB DOG FRIENDLY HOTEL POLICIES

---

Only small and medium-sized dogs (5–10 kg) are accepted as pets at the hotel.  
The hotel reserves the right to determine whether this pet is possible to accommodate.

The hotel accepts only healthy dogs that do not have signs of infectious diseases  
as well as exacerbation of chronic non-communicable diseases  
(requiring the presence of the owner to treat).

The dog must be made in advance:

1. preventive vaccinations with a complex vaccine – 1 time per year  
(but no later than 2 weeks before arrival)
2. deworming was performed (treatment against worms) – at least once every six months
3. treatment from fleas and ticks no later than a week before arrival and is valid  
for the entire period of stay at the hotel

When booking, you must provide photocopies of the veterinary passport with notes  
on vaccinations and treatments for helminths, fleas and ticks.

Upon arrival, the original veterinary passport is required.

Compliance of these simple rules will decrease the risk of emergencies in our conditions to minimum.

The mini-hotel for your dog has a separate room with a rug, food, water, a walk area  
and an instructor on duty.

### **Cost of living**

1 dog in a separate room 1000 uah/day
